Art Unit: 1771

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. The Examiner notes that applicants have failed to respond to the minor informality listed in Paragraph No. 1 of Paper No. 120505 wherein it was stated "on page 5, line 16 "14" refers to an adhesive, not a mesh label face.", so it is hereby repeated. Additionally, the Examiner also notes that "cap" is referred to in the Abstract, and "cap layer" is found in claim 15 (and now cancelled claim 16), but it appears to be completely absent from the specification. Clarification is requested.

3. Claims 1,3,5-10, 12,13, 15, 17,18, 20-23 and 24 (misnumbered claim 25) are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. More particularly, in claim 1 the specific relationship between several of the various elements, particularly between the location and connecting relationship of the pull tab and the release liner to the rest of the claimed tire label, and also the exact location of the RFID insert (wherein both the primer layer and the RFID insert appear to be taught as being located in the same place) is simply unclear from a reading of the claim, which could in essence be considered a "kit" claim. In claim 3 and newly presented claim 21 "additional" is vague and indefinite and in each of these claims "than" is improper grammar, as is "has been" in claim 10. Finally, newly presented claim 24 is a duplicate, i.e. 24 is identical to claim 23 upon which it is dependent upon.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note also Majumdar et al, Majumdar, and Bilodeau.

Art Unit: 1771

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
